ABOUT ME

Graduated with a B.Tech. in Computer Science and Engineering from Maulana Abul Kalam Azad University of Technology. Seeking to leverage technical skills and dedication to technology in a forward-thinking organization to enhance career and contribute effectively to organizational success.

EXPERIENCE

Web Designer

W3WebHelp

📅 Jun 2023 – Oct 2023   📍 Kolkata, India

- Crafting the front-end code carefully to ensure a 100% faithful portrayal of the design mockups.
- Verify the design's functionality across devices and screen sizes with 100% effectiveness.
- Validate website functionality across browsers (Chrome, Firefox, Safari, Edge) for 100% consistency.
- Tech Stacks: HTML, CSS, JS, Bootstrap

EDUCATION

B.Tech. (CSE) - 8.81 CGPA

Maulana Abul Kalam Azad University of Technology

📅 Jul 2018 - Jun 2022   📍 Kolkata, West Bengal

Higher Secondary - 76.8%

Nashipur High Madrasah (H.S.)

📅 Apr 2017 - Jun 2018   📍 Murshidabad, West Bengal

Secondary - 64.8%

Lalnagar High School (H.S)

📅 Feb 2015 - May 2016   📍 Murshidabad, West Bengal

ACHIEVEMENTS

- Solved 1200+ Data Structures and Algorithm problems on esteemed platforms like HackerRank, GFG.
- Earned 5-star Badges in Java, 6-star Badges in Comparative Coding, and 4-star Badges in SQL on HackerRank.
- Attained Java and SQL certifications on HackerRank.
- Achieved a Discrete Mathematics certification from IIT Madras with 100% proficiency.
- Secured C and HTML certifications from Sololearn.

TRAININGS

- **Core Java (J2SE)**
- **Advance Java (J2EE)**
- **Spring & Spring Boot Framework**

TECHNICAL SKILLS

- **Programming Languages :** Java, C, JavaScript
- **Frameworks :** Spring Boot, Hibernate
- **Development :** HTML, CSS, Bootstrap
- **Database :** MySQL
- **Version Control :** Git, GitHub
- **Other Tools :** Eclipse, NetBeans, Postman, Vs Code

COURSEWORK SUBJECTS

- **Data Structures and Algorithms**
- **Object Oriented Programming**
- **Database Management System**
- **Computer Networking**
- **Operating System**

PROJECTS

Job Portal Website

- **Java | Servlet | JSP | JDBC | HTML | CSS | JavaScript | Bootstrap | MySQL | Tomcat Server | NetBeans IDE**
- Crafted a job portal with 100% dedication akin to Naukri.com and Indeed.com, ensuring seamless job posting and communication, uniting companies and job seekers effortlessly.
- The platform guarantees 100% tailored job searches for freshers and experienced individuals, focusing on skills and location.

CRM Application

- **Java | Spring Boot | Spring WEB-MVC | Hibernate | Servlet | JSP | HTML | CSS | JavaScript | Bootstrap | MySQL | Spring Tool Suite IDE**
- CRM systems are indispensable, ensuring a 100% focus on nurturing relationships with customers and potential customers, thereby optimizing business processes and boosting profitability to its fullest extent.

E-Book System (E-commerce Website)

- **Java | Servlet | JSP | JDBC | HTML | CSS | JavaScript | Bootstrap | Tomcat Server | MySQL | Eclipse IDE**
- Created EBook-System, a digital haven ensuring 100% seamless book transactions, mirroring Amazon, Flipkart, and OLX.
- The system ensures 100% convenience for customers to buy new books and sell their old ones seamlessly.

Billing Software

- **Java Swing | MySQL | NetBeans IDE**
- Engineered a comprehensive billing and customer management software reflecting the efficiency of retail and fast-food giants like Big Bazaar, Domino's, and McDonald's with 100% precision.
- The software boasts 100% inclusive features: order billing, budget-based schemes, and email billing integration.
